APPLICATION**

Value-Added Vendors Only

In order to further the mission of the organization and the Farmers & Artisans Market --which is to support a strong local food economy, and support cottage industry on the island-- Sustainable Nantucket is establishing the **ultimate goal** that all value-added food products sold at our Market will contain as many ingredients as possible from Nantucket. In other words: IF value-added food products that are being sold at the Market contain ingredients which COULD be sourced here on the island --then those ingredients SHOULD be obtained from on-island growers and harvesters.

We would like to move toward this goal by requiring that, **as of 2017, all value-added or mixed vendors must carry a minimum of at least one value-added food product verified by SN to contain ingredients sourced on the island.**

Please list which products you are prepared to commit to selling in 2019, that contain at least one ingredient grown or produced on Nantucket. For each product listed, please identify both the Nantucket grown ingredient(s) AND the island farm(s) you have approached regarding sourcing those ingredients in 2019.

Product	Nantucket Grown Ingredient(s)	Local Source (grower, beekeeper, farm, etc.)
Example: Cranberry honey ginger scone	1. organic cranberries 2. honey 3. ginger	1. Nantucket Conservation Foundation 2. Eat Fire Apiary 3. Fields of Ambrosia
